### Summary

I help design and create things like startups, websites, apps, songs, and records while sitting right between design and engineering. Nice to meet you!

Experience

# ngrok ngrok

2023-

**Principal Product Designer** Shipping new features like our traffic inspector, and

new getting-started workflows. Redesigned their documentation while building a new design system.

Cleaned up all things front-end while building out

their end-to-end user experience. Shipped a new marketing website.

#### **Stack Overflow** Principal Product Designer, Design Systems

2017-2022

Shipped a ton of features on Stack Overflow before

transitioning to designing, building, and assembling a team to create Stack Overflow's design system Stacks.

GitHub's product, most notably code review, file

Senior Product Designer Pitched and designed features to help improve

**GitHub** 

2013-
